

OUR MISSION

To secure and protect access to climbing areas in Ontario through outreach, advocacy and stewardship.

The Ontario Access Coalition is a provincial not-for-profit group that works with climbers, landowners, and land managers to secure and protect climbing and bouldering areas, and to promote environmental stewardship. We work with a community of dedicated volunteers who care passionately about rock climbing access.

CODE OF ETHICS

- Aspire to climb and boulder without leaving a trace
- Maintain a low profile
- Use existing trails
- Dispose of human waste properly
- Understand and respect historical ethics and restrictions
- Respect the rules
- Park and camp only in designated areas
- Climb and boulder safely
- Be more aware of sensitive plant and animal species

WHAT BECOMING A MEMBER MEANS?

Joining the OAC means you have two interdependent passions:

a love of the outdoors for our provincial backyard, and the awareness of that feeling of climbing that Ontario rock and ice provide.

By uniting the climbing community across the spectrum, we maintain a dialogue between landowners to keep crags open. They say this province is "Yours to Discover"; let's keep it that way.

MORE INFO

Our website has more information about how to join; crag access updates; crag info; and responsible outdoors practices. Check it out.
